

## REPUBLICANS WON.

Elected the School Officers at Las Vegas on Monday.

### A FORGED CHECK.

Las Vegas, June 8.—George and Catherine Bell have entered suit against Jesse and Laura C. Minor to recover judgment in the sum of \$330, money loaned to a promissory note.

P. W. Zimmerman, of Albuquerque, was in the city yesterday.

Mayor Goodall has received word from Delegate Rodey making for any of our citizens who know a senator to write him in the interest of statehood.

Twenty-four of the thirty of our new fire plugs have been installed.

Father Paul Gilchrist went to Springer this afternoon.

There is a shortage of butter and eggs in the local market on account of the delayed trains.

Judge Mills has rendered a decision in favor of the plaintiff in the case of Solomon Florenheim vs. Guaranty Trust company. The case involved the title of some ranch land in Colfax county.

Janita Peila died yesterday of pneumonia at the age of 65 years. The funeral was held this morning.

T. Romero, Jr., has moved up his meat market on the west side near the plaza.

Miss Minnie Will departed this afternoon for Chillicothe, Ohio, for a visit.

Miss Arneson left this afternoon for Kansas City.

Mrs. Paul Cochran left today for San Francisco, Cal., for an extended visit.

George E. Row, division freight and passenger agent for the Santa Fe, went through today on his way to Chicago. It is understood that he will take up the question of Las Vegas freight rates with the powers that be.

Mrs. Kohn left today to attend the bedside of a sick relative.

District court convenes Monday with Judge Mills on the bench.

Hamon Trujillo was arraigned for disclosing a deadly weapon in the city limits and plead guilty. Elmer Galvin and Charles Rivers were arraigned for burglary and both pleaded not guilty. Later they changed their plea to guilty. Their case was called for trial this morning, and as they were without funds, the court appointed W. R. Bunker to defend the two men.

Antonio Castillo, an old man, almost feeble, and who has already been convicted at this season of assault with a deadly weapon, was arraigned for larceny of sheep and pleaded not guilty. The case of Donatiano Barros for sheep stealing is set for this afternoon.

Troop A, cavalry company, are contemplating on giving the play "The Girl I Left Behind Me" in the near future.

The partitions up stairs in the city hall which were used for partitioning the school rooms, have been removed and the room put in its original shape for public meeting and convention purposes.

Mining interests are booming up again as the information is given out that the plans have been drawn for a reduction mill at Rico.

Las Vegas had a good rain this afternoon.

A little forgery was committed last night at the bank saloon near the plaza owned by A. Gonzalez. A fellow by the name of James O'Brien, not known here but claiming to be a bartender, caused a check for \$20 with the name of J. K. Martin attached. Ten dollars was advanced to him and he put in a good time drinking and visiting the tenderloin district. He spent part of the time riding around in one of John Booth's carriages, and gave in payment an order for the other \$10 of his forged check.

Joyd J. Smith and P. H. Joyce, of Chicago, are here on mining business. They represent the Roelada and New Mexico Mining company and will go out to their property at Roelada tomorrow.

Charles E. Kirby, and others of the company, are expected Sunday and it looks very much as if there will be "something doing" at Roelada. In fact, Mr. Smith intimated as much.

This company has been systematically acquiring claims and options in this district, and as there is considerable wealth behind the company developments are to be expected at once.

J. N. Furlong, while walking along 8th street near the Baptist church last night tripped on the sidewalk and fell, injuring one of his knees severely. The knee had been injured before and the accident is a more or less serious one. Mr. Furlong will be laid up in bed for a week, if not a little longer.

As to the sidewalk along there, vitriol brick has been on the ground for some time ready to be put down, but the paving has been delayed awaiting the action of the council on the sidewalk question.

The regular party republican nominees carried the school election yesterday by healthy majorities. There was some transference in the republican camp in school district No. 4. The party leaders supposed every job was going along smoothly, when about noon they found another candidate in the field who claimed also to be a republican.

Mmanuel F. Jimenez, put up at the instance of Daniel C. de la Rosa, Nestor Sanchez, Romulo Villarreal and Rafael Gallegos. The latter, a man whom the republican party sent to the house of representative at one time. Pablo Jaramilla defeated the bolters' candidate by 68 votes, there having been just 150 votes cast in this district.

In district No. 1, the opposition to Pablo Villarreal, the republican candidate, was by Amador Villarreal, the democratic nominee. The republican candidate won by forty-four votes, out of a total of 197 votes cast.

ed was 16 years old and came to Albuquerque with her parents, Rev. H. L. Hoyer and wife, from Nebraska, about six months ago. The funeral will be held at the residence tomorrow morning at 10 o'clock. Interment will be made at Fairview cemetery.

### REAL ESTATE TRANSFERS.

Real estate transfers of Bernalillo county for the month of May, 1 to 31.

Mrs. D. L. Anderson to Lela A. Bernalillo, lots 1, 18, 14, block 21, O. T. side of Albuquerque, \$500.

Robert A. Miller and wife to M. W. Proulx, a fraction of lots 11 and 12, block B, and a piece of land in south-east part of block C, Simpler add No. 2, also lots 1 to 8 in block 2, N. J. Sanchez add, \$100.

W. F. McKay to Edward Lippert, 8 1/2 acres of land in precinct No. 4, \$450.

A. H. Harty to James McCorrison, fraction of lots 7 & 8 and 1/2 block 4, Hanning Highland add, \$45.

S. C. Harty to J. P. Post & Co., J. V. Clancy corner, range No. 132, \$1.

Sara Camilleria Y. de Sanchez, lots 17, 18 and 19, block letter "N," A & P add, \$675.

W. H. Harty and wife to Robert C. McClaskey, north 1/4 of lots 21, 22, 23, and 24, block letter "C," A & P add, \$1,000.

Juan A. Garcia y Sanchez and wife to Thomas S. Hildahl, lots 17, 18 and 19, block letter "N," A & P add, \$1,500.

Noble F. Trimble and wife to Joe Swartzman, lots 1 and 2 of section 32, township 9 n. and 1/4 of section 33, township 10 n. range 3 e. \$2,000.

W. L. Trimble to Joe Swartzman, all the section of lot 4, section 5, township 9 n. range 3 e. lying west of the A. T. & S. F. Ry. crossing right of way through lot 4, \$300.

Antonio Martinez and wife to Filomena B. de Gutierrez, a piece of land east of the town of Los Grigios, \$70.

City of Albuquerque to N. W. Alger, lot 12, block 20, Highland add.

Albuquerque Cemetery association to Congregation Albert, a piece of land situated in the city, north, north, section 27, township 10 n. range 3 e. \$250.

Hicento Garcia to Fredrick Greening, lot and house in precinct No. 5, Barcelona, \$20.

Francis Haring and wife to W. H. Hahn, lot 5, block letter "A."

Candelaria Y. de Lewis to John W. Lewis, 1/2 lots of land in C. W. Lewis add, \$1,200.

Frank P. Trotter and wife to D. J. Aude, lot 7, block 16, N. M. T. Co. add, \$5,500.

F. Armijo y Otero and wife to R. M. Merritt and wife, fraction of lots 9, 10, 11, 12, block 12, F. Armijo y Otero add, \$1,400.

Anders A. de Sandoval and husband to R. M. Merritt and wife, fraction of lots 9, 10, 11 and 12, F. Armijo y Otero add, \$1.

City of Albuquerque to Emma L. Horton and husband, lots 23 and 24, block 35, map of town of Albuquerque.

Horace C. Longwell to William Esposito, lots 17, 18 and 19, block letter "A," A & P add, \$500.

Horace C. Longwell to Charles Esposito, lot 21, block letter "A," A & P add, \$500.

Roy C. Ramsey to J. L. Schecher, a piece of land in the Wilcox add, 20x32, 162x180x140 feet, \$1,650.

George W. Johnston and wife to John F. Luby, lots 7, 8 and 9, block 26, Hanning's Highland add, \$1,800.

### SANTA FE PACIFIC.

Act Passed by Congress Relating to That Line of Road.

The McKinley county Republican says that house bill No. 10,229, authorizing the Santa Fe Pacific Railroad company to sell or lease its railroad property and franchises, and for other purposes passed the senate last week.

By the provisions of this bill the railroad company will pay a fixed charge as taxes of \$175 per mile, proportioned to the counties on the line between Isleta and Needles. This amount covers the right of way and rolling stock on the line. The taxes on the land grant will be assessed as at present. The bill provides that the first assessment at the new rate shall be made in 1902 and that the taxes shall be paid on or before December 1 of each year so long as New Mexico and Arizona shall remain as territories. After the territories become states the assessments shall be made in accordance with such laws as are adopted by the states. The new bill should be very satisfactory to the citizens of McKinley county, as they are given an increase over the present taxation of \$55 per mile, which amounts to \$3,850; there are seventy miles of the line in that county. Mr. Rodey has interested himself considerably in the passage of the bill and deserves great credit for his work. He has been in constant communication for the past two weeks on this matter with Messrs. Page, Canavan, Henry and representative citizens of Bernalillo and Valencia counties, in order to satisfy himself that the bill was in accordance with the wishes of the citizens of the counties through which the line passes.

The Santa Fe Pacific is now paying taxes on their right of way and rolling stock at the rate of \$120 per mile.

Satisfactory Progress is Being Made in the Grading of the New Railroad.

A. G. Kennedy, chief engineer of the Santa Fe Central railway, arrived in Santa Fe Saturday morning from Kennedy and left again in the afternoon. He brought with him splendid photographs of the construction work in progress and of Kennedy, taken with a panoramic camera. He reports that one mile of the heaviest work has been completed from Kennedy toward Santa Fe. There are several big rock cuts in this stretch. The piles for all the bridges between Kennedy and Vega Blanca have been driven and the completion of the telegraph line from Torrance to Santa Fe is delayed only by the non-arrival of the cross arms for the poles. Water has been struck at several places where deep wells have been drilled, but at Torrance thus far no water has been struck, although drilling is in progress and there is no doubt that eventually a good water supply will be secured.—New Mexican.

Terrific Forest Fires in Arizona.

A special dispatch to Denver News from Tucson, A. T., says: Disastrous forest fires are raging in Huachuca mountains in southern Arizona. The fire started in an unfrequented canyon and made rapid progress towards the

summit. The dense clouds of smoke and distant roar of the flames caused the people of Tombstone and other surrounding towns to become panic-stricken, as they at first believed it to be a volcano in eruption. Thousands of acres of excellent timber lands are being laid waste and the flames show no signs of abating. Prospectors, ranchers and mountaineers are fleeing to the plains for safety. The watershed of the Huachuca Water company is threatened with destruction. A large number of men have been sent out to protect it from the flames if possible. This company supplies Tombstone and several other towns with water and the destruction of its plant would cause a water famine. Several mining camps and ranches have been destroyed and it is feared that there has been some loss of life. The flames spread so rapidly that it seems almost impossible that all of those in the mountains could have escaped.

### A HANDSOME INCREASE.

Attendance at the Library During May Was Much Greater.

The library commission last night officially discussed the proposition of the university to lease rooms in the building. The report of the librarian, Miss Wetter, showed that during May 1,256 adults and 694 children of a total of 1,950 visited the library. In May of last year but 1,340 were in attendance, showing a gain of 620. During May of last year 323 books of juvenile fiction, 597 books of fiction and 208 books of the class of list were drawn out or a total of 1,128. During May a year ago 573 were drawn out, showing a gain of 555.

Ninety-seven new books were received last month. Among the number may be mentioned "Dorothy Vernon," "The Valley of Decision," "The Conqueror" and "Kate Bonnet."

### BOND WAS FIXED.

Bond of Sals, Charged with Murder, Fixed at \$5,000.

Court this morning tried the cases of Dionisio Gallegos vs. Cleofos Moraya, suit on open account for \$125, but the court sustained the defendant's plea of the statute of limitations to all except \$12 thereof, for which latter amount judgment was rendered.

In case of D. Gallegos vs. Felipe Montoya, suit for \$10 on a running account, the court sustained the defendant's objection to all of the account except \$25, which did not appear to be barred by the statute of limitations, for which latter amount judgment was rendered.

The court fixed bail for Sals, one of the men charged with the murder of Placido Salazar at Barcelona, at \$5,000, and to be approved by court.

### A HEAVY LOSS.

All Buildings Owned by Theodore Seth at Parkway, Burned.

Santa Fe, N. M., June 4.—The flouring mill, dwelling house, stables, barns and outhouses of Theodore Seth, at Parkway, Rio Arriba county, were totally destroyed by a fire last night caused by lightning. The loss is \$50,000, with an insurance of \$10,000.

### Program of San Felipe Day.

Next Sunday, June 5, the day celebrated in honor of the exalted saint, San Felipe de Neri, will be a gala day for the Catholics of Old Albuquerque. Sunday will be feast day. Saturday evening at 7:30 will occur solemn vespers. Sunday morning at 7 o'clock low mass will be held at the church. At 7:30 there will be music by the band and high mass will be held. In the afternoon at 4 o'clock there will be more music by the band, solemn benediction and procession. The celebrations of the day will close with a short, interesting program, beginning promptly at 8 o'clock. Besides a short musical concert and fire works there will be pleasing addresses on appropriate subjects by Hon. O. N. Marron and Nestor Montoya.

### Bad for Cattle.

Hon. I. B. Hanna, superintendent of forest reserves in New Mexico, who returned from the Gila forest reserve yesterday afternoon rode over 400 miles over the reserve the past ten days. He reports that cattle are dying by the score for lack of water and feed and that all along his way were grown dead and dying cattle while the water places had to be watched by the cowboys as the cattle were too weak to leave the water after they had reached it. He predicts that unless there are heavy rains soon in southwestern New Mexico many cattlemen will have to go out of the business.—New Mexican.

### New Rural Post Route.

Another rural post route in New Mexico will soon be in operation. The proposed route, favorably reported by Inspector L. A. Thompson, will serve 60 families daily, and will be of great benefit to the section through which it will run, bringing its people in daily contact with the outside world. The route will cover the country west of Maxwell City, Colfax county, for a distance of 25 miles. The pay of the carrier will be \$600 per year, the carrier to furnish his horse and wagon, with the privilege to carry other packages and express matter and to charge a fee for carrying the same.

### Durango Strike Ended.

The strike of the coal miners that has existed for several weeks past has been declared off. At a mass meeting of the miners it was decided to dissolve the strike unconditionally and return to work at whatever terms the mine owners desire, presumably the old scale. This decision was precipitated by dissatisfaction among a portion of the men and a desire to return to work. The miners at Hesperus, some thirty-five or forty, have declared their intention of going to work.

### President Coming.

President Roosevelt has been invited to attend the New Mexico territorial fair at Albuquerque next fall. While he received an invitation the same day to attend a fair at San Antonio, Texas, he is inclined to accept the former invitation. It will be a big day for the New Mexico fair when the president visits it.—Tucson Journal-Miner.

Mrs. F. D. Marshall, formerly of Winslow, Arizona, who has been visiting with friends in the city the past week, left this morning for Las Vegas, where she will make her future home.

## WEEKLY CROP BULLETIN.

United States Department of Agriculture, Climate and Crop Bulletin of the Weather Bureau, New Mexico Section.

Santa Fe, June 3, 1902. Stock and crop conditions have greatly improved during the past week. Good soaking rains occurred all over northern sections during the first part of the week, thoroughly relieving the severe drought of the prairie country of the northeast and in the vicinity of Rio Arriba county. As a rule outside water holes are filled to overflowing, grass on the ranges is starting rapidly, and the soil brought into fit condition for working and planting related crops on irrigated lands, such as corn and alfalfa.

In many localities of the north the heavy rains of Tuesday the 27th were accompanied by severe local hail which destroyed young garden vegetables and stripped the fruit from many orchards in the section of the country lying north and east of Las Vegas. Many sheep also were killed by the hailstones. In western Mora county and vicinity dams and irrigation ditches suffered considerable damage from the floods, but a good supply of water is insured for some time to come in those districts. In the extreme south very little rain has fallen during the week, but stock and crops remain in very good condition, although irrigation water is getting somewhat scarce in the lower Rio Grande. In the south-west where conditions were quite favorable during the earlier part of the season there has been very little rain for some weeks, and in some of the western Socorro county the drought is becoming severe. Land is being plowed in northern sections with a general average of something over fifty per cent, but many outfits as high as 80 per cent and above. Cattle are improving rapidly, excepting in the southwest. All irrigated crops are growing well excepting corn, which is backward in northern valleys on account of the cold nights. The high winds cause considerable dropping of fruit, but in general the prospect of a large fruit crop remains promising.

The following remarks are extracted from the reports of correspondents: Albert—H. M. Hanson—Drought broken at last to the great relief of the stockmen. Rains have been quite general throughout this part of the country, lambing about over, with generally poor results, but perhaps average but little over 50 per cent. A few favored localities with small herds report a fair count. Heavy rains on the 27th, an inch and a quarter falling between 10:30 and 11:30 a. m. Highest temperature, 55; lowest, 45; rain, 2.49.

Arabela—A. M. Richardson—Heavy winds, with rains on the 19th; Capitan mountains covered with snow. Highest temperature, 87; lowest, 57; rain, 0.20.

Bluewater—J. S. Vandoren—Cereals alfalfa and vegetables making rapid growth. Irrigation for the early season is completed. Corn coming up; range grass needs rain. Shearing and lambing is finished; lambing yielded about 60 per cent. Highest temperature, 100; lowest, 77; no rain.

East Las Vegas—J. Thornhill—The record for the 26th and 27th relieved the drought and put soil in good condition for working and planting. Some corn is up. It develops that alfalfa suffered greatly from the frosts of the 13th-20th, otherwise is looking well. All irrigated crops are growing well. Range grass is starting but more rain is needed.

Eastview (Valencia Co.)—John W. Corbett—Good showers have kept vegetation growing nicely; planting is about finished and everything is looking well. Grass is good and live stock improving. Highest temperature, 79; lowest, 42; rain, 0.02.

Gallinas Springs—J. E. Whitmore—A fine week for the growth of crops and the grass on the ranges. There have been good rains. Cattle are improving and sheep are doing nicely. Some have finished shearing and without loss. Highest temperature, 91; lowest, 44; rain, 0.72.

Gerando—S. M. Nelson—Somewhat windy, but a good soaking rain the first part of the week and planting has been resumed.

Hobart—W. H. Hough—Thunder showers with hail—rather a more favorable week for crops although corn is somewhat backward on account of the cold nights.

Los Alamos—Wm. Frank—A good, soaking rain on the 26th-27th, accompanied by high winds. This will start all vegetation, and oats can still be sown. Range grass is starting nicely. Sheep are in good condition and the result of lambing is quite favorable.

Medilla Park—R. H. Hart—Continued hot, dry and dusty, although threatening rains the first part of the week. Irrigation water getting scarce. Wheat is beginning to head; the second crop of alfalfa is starting. Corn planting is about completed. Prospects good for a fine grape crop. Highest temperature, 99; lowest, 37; rain, trace.

Mora—Francisco Mora—General rains from the 26th to the 28th relieved the drought. Grass is beginning to show. Heavy losses in sheep.

Ojo Caliente—Antonio Joseph—Cattle rains have made the farmers and stockmen happy. Hail on the 27th did some damage, especially to fruits. The yield of lambs will not exceed 50 per cent this year. Stock is now in fair condition. Water in the streams has increased, and the recent rains insure a good water supply. Highest temperature, 85; lowest, 45; rain, 1.02.

Roy—Alex S. Bush—The protracted drought broken by a steady rain Monday afternoon, and on Tuesday one of the heaviest rains since 1896. All the dry lakes overflowed and the weather continues cloudy with the promise of more rain. The rains came too late for the lambing season, which in general average about 50 per cent, excepting two outfits where the average is about 80. Plowing will now begin generally.

Santa Fe—U. S. Weather Bureau—A fine growing week and all vegetation has made rapid progress. Alfalfa will soon be ready to cut. Considerable fruit is falling, but the trees have plenty left. Corn makes rather slow growth on account of the cold nights, and also from the recent heavy frosts. Irrigation water is plentiful. Highest temperature, 76; lowest, 43; rain, 1.10.

Weber—E. H. Blomhagen—Rains began on Monday and continued intermittently for three days. Some ditches and dams suffered from the high water but farmers are greatly encouraged. Corn and beans are now being planted

on temporal lands. All the water holes on the prairie are filled. Some damage from the hail on Tuesday.

Woodbury—A. J. Woodbury—Highest temperature, 85; lowest, 44; rain, 0.18.

R. M. HARDINGE, Section Director.

### END OF BOER WAR.

The war in South Africa is ended, England has saved her "honor" and that is about all she has to show for the long struggle which has cost her so dearly in blood and treasure. For the privilege of having it go out to the world that she has won the fight she grants the vanquished foe about everything they ask, save absolute independence.

Not only is it agreed not to tax the conquered country for the expenses of the war, but the British government promises to put up \$15,000,000 for the purpose of restoring the devastated country to some semblance of what it once was.

The Boers lay down their arms and England does the rest. It is plain that the victory won here is due to the fact that peace has been brought about regardless of humiliating terms.

All prisoners are to be brought back as soon as possible to South Africa, without loss of liberty or property.

No action is to be taken against prisoners except where they are guilty of the breaches of the rules of war.

Dutch is to be taught in the schools, if desired by the parents, and used in the courts, if necessary.

Riots are allowed for protection. Military occupation is to be withdrawn as soon as possible and self-government substituted.

There is to be no tax on the Transvaal to pay the cost of the war.

What more could the defeated party ask except absolute independence?

### EL PASO EXHIBIT.

Says the Albuquerque Citizen: "The El Paso Herald is urging that city to make a big exhibit at the St. Louis world's fair. El Paso should begin by bringing an exhibit to the New Mexico fair to be held in this city next October."

To this the Herald says: "That is a fair proposition. El Paso as the metropolis of the great southwest must reciprocate favors. El Paso expects Albuquerque to take part in all our shows, and to help get together the missing exhibit for the St. Louis exposition. It is only proper that El Paso should help Albuquerque in making her public entertainments and projects successful."

"El Paso should get together a permanent exhibit that can be put in shape for easy transport from point to point as occasion may require. This city should have an exhibit at every important exposition that takes place in the United States. In many cases, the mere fact that no other place so remote or of similar character had an exhibit would serve to call attention to ours. This is one of the most effective ways of advertising."

"Let El Paso take in the Albuquerque fair, and help make it go."

### STRIKE LOSSES.

The statement of the losses by the operators and the operatives sent out from Wilkesbarre, Pa., indicates that in the past two weeks the whole country has suffered to the amount of \$14,000,000, or at the rate of \$7,000,000 a week. If it should continue for six months the loss would be \$180,000,000.

These simple figures show what a colossal calamity a strike of this kind is to the nation, and few can perceive any compensating advantages. The disturbance it creates and will create in manufacturing interests are immeasurable. It is a source of pain to perceive that both sides are more set in their determination to carry on the battle. The effort to call out all the firemen, the stationary engineers and the pump-runners in the mines is viewed with intense alarm by the community, not only there, but elsewhere.

H. H. Sheppard, general agent for the Chicago & Alton, with headquarters at Denver, passed through the city this morning, going north. He had been transacting business at El Paso.

J. E. Saint, secretary of the Santa Fe Central and Albuquerque Eastern, was a passenger north this morning.

60 YEARS' EXPERIENCE

PATENTS

TRADE MARKS, COPYRIGHTS, ETC.

Scientific American.

MUNN & Co. 361 Broadway, New York

Branch Office, 65 F St., Washington, D. C.

A CHANCE IN A LIFE TIME

to invest on the ground floor with owners, in a developed free milling gold mine that has produced, and has expended on it

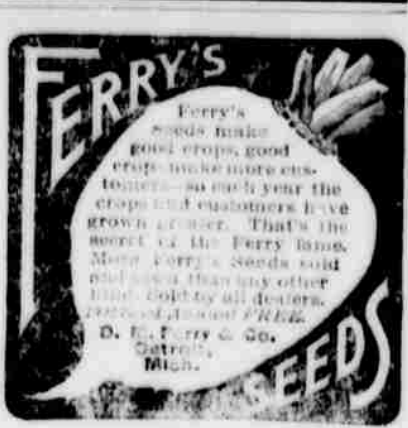

FIFTY THOUSAND DOLLARS

in development on the ledge and a complete five-stamp mill, with all other necessary machinery ready to run.

The Ozark is not a prospect, but a mine that has produced. We are placing 100,000 shares of development stock at 25c per share, capital stock 1,000,000 shares, (par value \$1 each), fully paid and non-assessable, to further develop and put the property on a paying basis.

A property lying near the Ozark, with nowhere as good a showing and very little development, sold last week to a New York syndicate for \$200,000. The Ozark will pay dividends and be worth par inside of six months. This is the best investment for the money that has ever been offered to the investing public.

Do not lose this opportunity. It will never come again. For further particulars, prospectus, report on mine, references, etc., address,

NOTICE OF SALE.

In the District Court, in the County of Bernalillo, Territory of New Mexico.

E. L. Medler et al. vs. Tillo A. Sanchez et al.

Notice is hereby given that under and by virtue of the decree of said court in the above suit, dated January 3rd, 1902, and entered of record in said court on the 6th day of January, 1902, the undersigned, Special Master appointed in said decree, will on Tuesday, the 19th day of June, 190
